

Geographies of food: global visions of healthy and unhealthy food : Global Visions of Healthy and Unhealthy Food

[Agyekum, Samuel](#)(Edited by), [Awuh, Harrison Esam](#)(Edited by)

Part of the [Springer Geography](#) series

This volume offers a multi-scale, epistemically diverse, and sense-making perspectives on the food system.

The book argues that sustainable food system transformation is a complex proposition that can better thrive upon the inclusion of consumer perspectives.

The book brings together scholarly works of critical scholars and practitioners who bring to bear the uniqueness of places, cultures, histories and interactions in the milieu of food.
