

TABLE OF CONTENTS

Glossary of Selected Terms	vii
Preface	xi

CHAPTER 1 THE NORMS OF GEOPHYSICS AND GEOCHEMISTRY

Introduction.....	2
Necessity of Geophysics and Geochemistry.....	4
Tectonics and Geodynamics	9
Seismology and Volcanology	15
Environmental Geochemistry.....	39
Aeronomy and Magnetosphere.....	46
References.....	60

CHAPTER 2 ATMOSPHERIC CHEMISTRY

Introduction.....	66
Structure and Composition of the Atmosphere.....	67
Emission of Air Pollutants	80
Biogeochemical Cycle of Carbon	93
References.....	104

CHAPTER 3 ELECTROMAGNETIC WAVES AND POLARIZATION

Introduction.....	110
Circulation of an Electromagnetic Wave	111
Polarization	120
The Generation of Electromagnetic Waves.....	130
References.....	141

CHAPTER 4 HEAT FLOW AND ENERGETICS OF THE EARTH

Introduction.....	148
Global Energy Sources.....	150
References.....	174

CHAPTER 5 PROCESS OF REMOTE SENSING

Introduction.....	180
Synopsis of Remote Sensing Technology	182
Applications of Remote Sensing and GIS	197
Mapping Soil Resources with Remote Sensing Data.....	208
References.....	212

CHAPTER 6 BIOSPHERE INTERACTION

Introduction.....	220
Concept of Biosphere	221
The Organization of the Biosphere	224
Biomes	233
References.....	239

CHAPTER 7 GEOGRAPHIC INFORMATION SYSTEM (GIS)

Introduction.....	244
Fundamental of Geographical Information System.....	246
Data Sources	267
Data Analysis	286
References.....	310
Index	313
