

# TABLE OF CONTENTS

*List of Contributors* ..... xiii

*Preface*..... xvii

**Introduction** ..... 1

• **References** ..... 14

## SECTION 1 WATER & WIND POWER

**Chapter 1** **Hydropower – The Sustainability Dilemma**..... 17

• **Introduction** ..... 17

• **The Economic Growth And Its Energy Demands** ..... 18

• **The Economics Context Of “Hydropowering”** ..... 20

• **The Hydropower’S Role In This Context, as a Renewable Source of Electricity** ..... 22

• **The Agenda of Hydropower For Next Decades** ..... 23

• **The Best Alternative: Non Generation?** ..... 23

• **Discussing The Main Environmental Impacts Of Hydropower** ..... 24

• **Hydropower And Social Issues** ..... 28

• **How Risky Can The Hydropower Investments Be?** ..... 30

• **When Is Hydropower An Object Of Strong Or Weak Sustainability?** .. 32

• **Some Important Assets: The WCD Reports And Hydropower** ..... 35

• **Sustainability And Hydropower: Is There A Real Dilemma?** ..... 37

• **References** ..... 38

**Chapter 2** **Small Wind Turbines: Specification, Design, And Economic Evaluation** ..... 43

• **Abstract** ..... 43

• **Introduction** ..... 44

• **Swt Design Solutions** ..... 46

- Swt’s Economic Evaluation ..... 56
- Summary ..... 65
- Acknowledgements..... 66
- References ..... 66

**Chapter 3 Enhancing Wave Energy Competitiveness Through Co-Located Wind And Wave Energy Farms. A Review on The Shadow Effect..... 69**

- Abstract ..... 69
- Introduction ..... 70
- Economics Of Wave Energy ..... 72
- Co-Located Wind And Wave Energy Farms..... 76
- Conclusions ..... 89
- Acknowledgments ..... 90
- References ..... 91

**SECTION 2 SOLAR, SOLAR-HYBRIDS, AND GEOTHERMAL POWER**

**Chapter 4 Optimizing Hybrid Renewable Energy Systems: A Review ..... 107**

- Abstract ..... 107
- Introduction ..... 108
- Optimal Sizing For Hybrid Renewable Energy Systems ..... 109
- Optimization Algorithms For Hybrid Renewable Energy Systems ..... 110
- Optimization Objectives For Hress ..... 113
- References ..... 119

**Chapter 5 Sustainability of Off-Grid Photovoltaic Systems For Rural Electrification In Developing Countries: A Review..... 127**

- Abstract ..... 127
- Introduction ..... 128
- Materials And Methods ..... 130
- Results ..... 134
- Environmental Sustainability ..... 145
- Discussion And Conclusions ..... 153
- Acknowledgments ..... 156
- References ..... 157

<b>Chapter 6</b>	<b>Geothermal Energy: Delivering On The Global Potential.....</b>	<b>177</b>
	• Abstract .....	177
	• Introduction .....	178
	• Historical Context And Resource Categorization .....	180
	• Recent Innovations .....	182
	• Gaps Analysis of Geothermal Innovation: Towards A Whole-System Research Agenda .....	194
	• Conclusions .....	197
	• References .....	198

### SECTION 3 BIOFUEL AND BIOMASS

<b>Chapter 7</b>	<b>Global Biomass Production Potentials Exceed Expected Future Demand Without The Need For Cropland Expansion.....</b>	<b>207</b>
	• Abstract .....	207
	• Introduction .....	208
	• Results .....	210
	• Discussion .....	219
	• Methods.....	220
	• Promet .....	222
	• Dart-Bio.....	229
	• Acknowledgements.....	237
	• Author Information .....	237
	• References .....	238

<b>Chapter 8</b>	<b>Optimal Bioenergy Power Generation For Climate Change Mitigation With Or Without Carbon Sequestration.....</b>	<b>243</b>
	• Abstract .....	243
	• Introduction .....	244
	• Results .....	246
	• Discussion .....	254
	• Methods.....	257
	• References .....	275

## SECTION 4 HYDROGEN AND NUCLEAR POWER

<b>Chapter 9</b>	<b>Positioning Nuclear Power In The Low-Carbon Electricity Transition...</b>	<b>285</b>
•	Abstract .....	285
•	Introduction .....	286
•	The Five Main Energy-Related Legacies Of The Past 70 Years .....	288
•	A Tedious “Axiom” Of Global Energy And Climate Policy .....	291
•	Arguments For A Sustainable Transition Plan, Realistic And Non-Nuclear .....	300
•	Conclusions .....	303
•	References .....	304
<b>Chapter 10</b>	<b>Upscaling of Integrated Photoelectrochemical Water-Splitting Devices to Large Areas.....</b>	<b>311</b>
•	Abstract .....	311
•	Introduction .....	312
•	Results .....	313
•	Discussion .....	329
•	Methods.....	331
•	Competing Interests .....	334
•	References .....	334

## SECTION 5 ENERGY STORAGE & BUILDING INTEGRATION OF SUSTAINABLE ENERGY SOLUTIONS

<b>Chapter 11</b>	<b>A Critical Study of Stationary Energy Storage Policies In Australia In An International Context: The Role Of Hydrogen And Battery Technologies .....</b>	<b>343</b>
•	Abstract .....	343
•	Introduction .....	344
•	Energy Storage: A Global Overview .....	347
•	Australian Policies And Plans .....	362
•	Discussion .....	371
•	Conclusions .....	380
•	References .....	382
	<b>Citations.....</b>	<b>393</b>
	<b>Index .....</b>	<b>397</b>
