

TABLE OF CONTENTS

<i>Preface</i>	ix
Chapter 1 Organic Agriculture: An Introduction	1
1. Origin of Organic Agriculture.....	2
2. Negative Impacts of the Green Revolution	3
3. Interest in Organic Agriculture	10
4. Organic Agriculture Practices and Sustainability	19
Chapter 2 Soil Fertility Management In Organic Agriculture – Challenges And Potential Solutions	21
1. Land Preparation in Organic Agriculture	22
Chapter 3 Seed and Planting Material in Organic Agriculture	69
1. Role of Traditional Varieties in Organic Agriculture	71
2. Drawbacks of Green Revolution varieties.....	71
3. Seed Treatments – What is Permitted and what is not?	76
4. Organic Seed Treatment	77
Chapter 4 Insects, Pests and Disease Management In Organic Agriculture	93
1. Introduction	93
2. What is a Pesticide?	94
3. Steps towards Pest, Disease and Weed Management in Organic Farming	96
Chapter 5 Weed Management In Organic Farming – The Most Important Question of All	117
1. Weed Prevention.....	118
2. Good Crop Husbandry Methods	120
3. Physical Methods of Weed Control	129
4. Biological Weed Control	132
5. Soil Solarization	132
6. Tillage	133

8.	Thermal Weed Control	134
9.	Sustainability of Mechanical Weeding Practices Applicable in Organic Agriculture.....	136
Chapter 6	Organic Animal Husbandry.....	141
1.	Introduction	141
2.	Disease Prevention Methods	146
3.	Strategies for Animal Health and Design	148
4.	Preventative Strategies for Animal Health	152
5.	Breeding	153
6.	Organic Standards	162
7.	Grazing.....	163
8.	Organic Animal Husbandry Certification.....	164
9.	Veterinary Conditions	166
Chapter 7	Organic Agriculture and The Way Forward	167
1.	Marketing of Organic Produce	167
2.	Current Status on the Economic Sustainability of Organic Farms ..	168
3.	Constraints faced by Organic Farms	168
4.	Problems for Organic Food Consumers	173
5.	Possible Improvements in Organic Inputs' Supply Chain and Organic Produce Supply Chain	175
6.	Meeting Regulatory Requirements.....	181
7.	Ensuring Sustainability of Organic Farms.....	183
	References.....	187
