

# Table of Contents

<b>Chapter 1</b>	<b>Monogenetic Basaltic Volcanoes: Genetic Classification, Growth, Geomorphology and Degradation</b>	<b>1</b>
<b>Chapter 2</b>	<b>An Overview of Mud Volcanoes Associated to Gas Hydrate System</b>	<b>87</b>
<b>Chapter 3</b>	<b>Mud volcanoes in the South Caspian basin: Nature and estimated depth of its products</b>	<b>131</b>
<b>Chapter 4</b>	<b>Damage from Lava Flows: Insights from the 2014–2015 Eruption of Fogo, Cape Verde</b>	<b>151</b>
<b>Chapter 5</b>	<b>Global Recording Rates for Large Eruptions</b>	<b>183</b>
<b>Chapter 6</b>	<b>Forecasting Volcanic Ash Deposition using HYSPLIT</b>	<b>205</b>
<b>Chapter 7</b>	<b>Probabilistic Hazard Modelling of Rain-Triggered Lahars</b>	<b>221</b>
<b>Chapter 8</b>	<b>Volcanic Natural Resources and Volcanic Landscape Protection: An Overview</b>	<b>235</b>

<b>Chapter 9</b>	<b>Satellite-Based Thermophysical Analysis of Volcaniclastic Deposits: A Terrestrial Analog for Mantled Lava Flows on Mars</b>	<b>281</b>
<b>Chapter 10</b>	<b>Sensitivity to Volcanic Field Boundary</b>	<b>319</b>
<b>Chapter 11</b>	<b>Volcanic Rock-Hosted Natural Hydrocarbon Resources: A Review</b>	<b>353</b>
<b>Chapter 12</b>	<b>Stereoscopic Estimation of Volcanic Ash Cloud- Top Height from Two Geostationary Satellites</b>	<b>383</b>
	<b>Index</b>	<b>413</b>
