

Table of Contents

Chapter 1	The Reality of Life During Floods	1
Chapter 2	Flooding and Flood Risk Reduction in Nigeria: Cardinal Gaps	23
Chapter 3	Low-salinity flooding in a selected carbonate reservoir: experimental approach	53
Chapter 4	Sensitivity of Coastal Flood Risk Assessments to Digital Elevation Models	77
Chapter 5	Technologies to Support Community Flood Disaster Risk Reduction	93
Chapter 6	Assessment of Prolonged Unsafe Conditions through Tidal Flood and Rain water Flood at Lower Bengal Basin, India	105
Chapter 7	Saving Lives: Timely Flash Flood Warnings in the UK	121
Chapter 8	The 2011 Brisbane Floods: Causes, Impacts and Implications	139

- Chapter 9 Dilemmas and Pathways to Dealing with Flood Problems in Twenty-First Century China 169**
- Chapter 10 Momentum Attraction by Flood Plains in Compound Channel 193**
- Chapter 11 Effective and Sustainable Flood and Landslide Risk Reduction Measures: An Investigation of Two Assessment Frameworks 209**
- Chapter 12 Study and Analysis of Chennai Flood 2015 Using GIS and Multicriteria Technique 241**
- Chapter 13 The Sustainable Procedure Framework for Disaster Risk Management: Illustrated by the Case of the EU Floods Directive in Sweden 259**
- Chapter 14 Coastal Flooding in the Solent: An Integrated Analysis of Defences and Inundation 283**
- Chapter 15 Response and recovery measures for two floods in north China during the nineteenth century: a comparative study 319**
- Chapter 16 Flood Hazard Mapping of Lower Indus Basin Using Multi-Criteria Analysis 337**
- Chapter 17 Flood Management in California 349**
- Chapter 18 Framework of National Non-Structural Measures for Flash Flood Disaster Prevention in China 365**
-

Chapter 19	Managing the Limbe Floods: Considerations for Disaster Risk Reduction in Cameroon	379
