

TABLE OF CONTENTS

Glossary of Selected Terms	vii
Preface	xi

CHAPTER 1 FLOOD AND GEOLOGICAL HAZARDS

Introduction.....	2
Causes of Hazards in Geological Processes	4
Hydrometeorological Phenomena and Hazards.....	20
References.....	38

CHAPTER 2 GEOMORPHIC PROCESSES AND EARTH MOVEMENT

Introduction.....	44
Exogenic and Endogenic.....	44
Geological Processes.....	49
Rocks Undergo Weathering	52
Physical Behavior of Rocks: Stress	58
References.....	61

CHAPTER 3 FLOOD RISK MANAGEMENT

Introduction.....	64
Disaster Risk Assessment Process.....	65
Interaction of Hazards, Vulnerability and Disaster Risk	85
Integrating Disaster Risk Assessment in the Project Development Cycle.....	95
Planning an Institutional Assessment of Disaster Risk Management Systems	110
References.....	120

CHAPTER 4 FLOODPLAIN AND LANDFORM

Introduction.....	126
Floods and Floodplain Management.....	128
Landforms of the Earth.....	135
References.....	145

CHAPTER 5 MITIGATION AND CONTROL

Introduction.....	148
Concept of Mitigation and Its Importance	149
Volcanic Hazards	164
Disaster Management Cycle	179
References.....	193

CHAPTER 6 FLOOD DISASTER RELIEF, REHABILITATION AND RECONSTRUCTION

Introduction.....	198
Disaster Recovery (DR).....	199
Disaster Recovery Plan	225
References.....	245

CHAPTER 7 GRAVITY DAMS: FLOOD CONTROL

Introduction.....	250
Basic Concept of Gravity Dams: Design Criteria	251
Overtopping Stability	261
Forces Acting on Gravity Dams.....	276
Preparation of Foundation for Dam Construction.....	286
References.....	313
Index	319
