Foreword .....	ix
Preface.....	xi
Author.....	xiii
<b>1. Introduction.....</b>	<b>1</b>
<b>2. Characteristics of Urban Landscape Feature in Local and Regional Scales .....</b>	<b>7</b>
2.1 Introduction .....	7
2.2 Role of Remote Sensing for the Urban Landscape .....	7
2.3 Application of High-Resolution Satellite Imagery .....	9
2.4 Mapping Urban Land Cover Using QuickBird Imagery .....	12
2.5 Decision Tree Model for Urban Land Cover Classification .....	14
2.6 Object-Based Image Analysis for Urban Land Cover Classification.....	16
2.7 Summary.....	22
<b>3. Characterization of Urban Land Cover in a Moderate Resolution.....</b>	<b>23</b>
3.1 Introduction .....	23
3.2 Characteristics of Urban Landscape .....	23
3.3 Mixing Features of Urban Landscapes.....	28
3.4 Characterization of Urban Landscape .....	29
3.4.1 Spectral Mixture Analysis.....	29
3.4.2 Regression Tree Algorithms.....	34
3.5 Another Method for Urban Land Classification.....	46
3.5.1 Artificial Neural Network .....	46
3.5.2 Support Vector Machine .....	48
3.6 Summary.....	49
<b>4. Regional and Global Urban Land Cover Characterizations.....</b>	<b>51</b>
4.1 Introduction .....	51
4.2 Characterization of National Urban Land Cover .....	52
4.2.1 Development of National Urban Land Cover Product in the United States.....	52
4.2.2 Updated NLCD Impervious Surface Product .....	54
4.2.3 Urban Land Cover Changes in the United States between 2001 and 2011 .....	57
4.3 Regional and Global Efforts of Mapping Urban Land .....	59
4.4 Mapping Global Urban Land Cover from Nighttime Light Imagery.....	63

4.5	Map Global Urban from MODIS Satellite Data .....	65
4.5.1	Urban Extent Definition .....	66
4.5.2	Classification Tool .....	66
4.5.3	MODIS Data .....	67
4.5.4	Training Data .....	67
4.5.5	Urban Ecoregion .....	68
4.5.6	Classification of Global Urban Land Cover .....	68
4.5.7	Accuracy Assessment for the Global-Scale Product .....	70
4.6	New Progresses on Global Urban Mapping Effort .....	71
4.6.1	Remote Sensing Data .....	72
4.6.2	Image Classification .....	72
4.6.2.1	Landsat Data .....	72
4.6.2.2	TerraSAR-X Data .....	73
4.6.3	Multitemporal Change Detection .....	75
4.6.4	Urban Footprint and Multitemporal Change Product .....	75
4.7	Summary .....	75
<b>5.</b>	<b>Assessment of Water Quality in Urban Areas .....</b>	<b>77</b>
5.1	Introduction .....	77
5.2	Parameters of Inland Water Quality .....	80
5.3	Satellites Measurements and Empirical Algorithms for Different Water Quality Parameters .....	85
5.3.1	Chl-a and Algal .....	85
5.3.2	Colored DOM .....	88
5.3.3	TSS Concentration Estimate .....	89
5.4	Characterization of Pollutant Loading in a Watershed .....	90
5.5	Satellite-Derived Water Quality Map .....	95
5.5.1	Suspended Sediments in the Lake Chicot, Arkansas .....	95
5.5.2	Water Properties in Chesapeake Bay .....	96
5.5.2.1	Satellite Chl-a Composite Images .....	98
5.5.2.2	Satellite Images and Time Series of MODIS TSS Measurements .....	98
5.5.3	Water Quality Assessment for China's Inland Lake Taihu .....	100
5.6	Summary .....	102
<b>6.</b>	<b>Natural Hazard Assessment for Urban Environments .....</b>	<b>105</b>
6.1	Introduction .....	105
6.2	Urban Development and Land Cover Transition in the Gulf of Mexico Region .....	106
6.3	Flood Risks in Urban Environments Using Medium- Resolution Remote Sensing .....	111
6.4	Landslide Assessment in Coastal Urban Areas .....	114
6.4.1	Detection of Landslides Using Remote Sensing in Hong Kong .....	115

6.4.2	Assessment of Landslide Environment in the Seattle Area.....	118
6.4.2.1	Remote Sensing Data.....	120
6.4.2.2	Impervious Surface Estimate.....	120
6.4.2.3	Evolution of Landslides in the Seattle Urban Area.....	122
6.5	Summary.....	127
<b>7.</b>	<b>Air Quality in Urban Areas—Local and Regional Aspects.....</b>	<b>129</b>
7.1	Overview.....	129
7.2	Satellite Retrievals.....	132
7.3	Medium-Resolution Satellite Remote Sensing.....	133
7.3.1	ERS-2.....	133
7.3.2	Terra.....	133
7.3.3	Envisat.....	136
7.3.4	Aqua and Aura.....	136
7.3.5	MetOp.....	137
7.3.6	Other Platforms.....	137
7.4	Species Observations.....	138
7.4.1	Trace Gases.....	138
7.4.2	Aerosol Remote Sensing.....	140
7.5	Assessments of Air Quality in Urban Areas.....	141
7.5.1	Assessment of PM <sub>2.5</sub> Distribution.....	141
7.5.2	Nitrogen Dioxide.....	143
7.5.3	Ozone.....	146
7.6	Urban Land Cover and Air Quality.....	147
7.7	Summary.....	150
<b>8.</b>	<b>Air Quality in Urban Areas—Global Aspects.....</b>	<b>153</b>
8.1	Introduction.....	153
8.2	Satellite Systems for Global Air Quality Assessment.....	156
8.3	Methods of Estimating the Aerosol Anthropogenic Component.....	157
8.4	Applications of Remote Sensing for Global Air Quality Assessment.....	160
8.4.1	Characterization of Global PM <sub>2.5</sub> Distribution.....	160
8.4.2	Intercontinental Transport of Pollutant.....	163
8.5	Summary.....	167
<b>9.</b>	<b>Urban Heat Island and Regional Climatic Effect.....</b>	<b>169</b>
9.1	Introduction.....	169
9.2	Calculation of LST from Remote Sensing.....	171
9.2.1	AVHRR Instrument.....	171
9.2.2	Landsat Imagery.....	173
9.2.3	MODIS.....	174

9.3	Quantification of UHI Using Remotely Sensed LST Products ...	174
9.3.1	UHI Effects in a Local Scale .....	175
9.3.2	Analysis of UHI Using Gridded Temperature and Land Cover Datasets .....	178
9.3.3	UHI Effect across the Continental United States .....	182
9.3.4	Regional UHI Effects in Europe .....	185
9.4	Global Aspect of UHI Effect.....	187
9.5	Climate Impacts of UHI .....	188
9.6	Summary .....	190
<b>References .....</b>		<b>191</b>
<b>Index .....</b>		<b>213</b>
