Foreword vii

Preface ix

Lesson 1 Frame the problem and explore the study area 1

Exercise 1a: Explore the study area 7

Exercise 1b: Do exploratory data analysis 36

Lesson 2 Preview the data 59

Exercise 2a: List the data requirements 59

Exercise 2b: Examine the data 64

Exercise 2c: Reframe the problem statement 76

Lesson 3 Choose the data 87

Exercise 3a: Choose the datasets 89

Exercise 3b: Choose a coordinate system 106

Lesson 4 Build the database 127

Exercise 4a: Project a shapefile 130

Exercise 4b: Copy a feature class 138

Exercise 4c: Prepare the city and county data 141

Exercise 4d: Prepare the river data 151

Exercise 4e: Prepare the park data 153

Exercise 4f: Prepare the block group data 161

Exercise 4g: Prepare the parcel data 172

Lesson 5 Edit the data 183

Exercise 5a: Edit a feature 183

Exercise 5b: Create a new park feature 193

Lesson 6 Conduct the analysis 203

Exercise 6a: Establish proximity zones 206

Exercise 6b: Apply demographic constraints 216

Exercise 6c: Select suitable parcels 226

Exercise 6d: Clean up the map and geodatabase 241

Exercise 6e: Evaluate your results 249

Lesson 7 Automate the analysis 257

Exercise 7a: Set up the model 259

Exercise 7b: Build the model (part 1) 263

Exercise 7c: Build the model (part 2) 275

Exercise 7d: Run the model as a tool 283

Lesson 8 Present your analysis results 295

Exercise 8a: Create the main map 298

Exercise 8b: Create a layout using the LA River and inset maps 308

Exercise 8c: Finish the map 322

Lesson 9 Share your results online 335

Appendix Data and image credits 339
